## **Air Techniques Introduces a New [View](#) in Digital Radiography**

**MELVILLE, New York — (May 15, 2019) —** [Air Techniques, Inc.](#), a leading innovator and manufacturer of dental equipment, has announced [ScanX Classic View](#) as the latest digital radiography system in their [ScanX View family series](#). This new scanner enables digitization of PSPs for all intraoral formats, sizes 0-4 and extraoral Pan and Ceph plates. It will make its debut at the California Dental Association Presents in Anaheim at the [Air Techniques Booth number 316](#).

The [ScanX Classic View](#) digital radiography system provides efficiency without compromise. Inclusive to every intraoral size and capable of reading extraoral Pan and Ceph plates, the new [ScanX Classic View](#) covers all of your diagnostic needs. It features a large color touchscreen that can display a preview of the scanned image, allowing X-rays to be quickly checked. The easy-to-use interface enables preset scan modes resulting in more reliable scanning. ScanX Classic View also features four slots for simultaneous scanning and WiFi, making the device exceptionally flexible.

"[ScanX Classic View](#) offers many advantages to today's dental practices like quicker, more reliable diagnostics, improved workflow, patient comfort, and low cost of ownership," said Jonathan Newman, Air Techniques' Digital Imaging Product Manager. "ScanX eliminates annual costs a practice might be spending on insurance or processor chemicals, while providing greater flexibility and uncompromised image quality. We are excited to expand our offering of ScanX digital imaging systems with the new [ScanX Classic View](#)."

See the [ScanX Classic View](#) at the Air Techniques booth number 316 during the CDA presents in Anaheim. Enter to play "[Scan to WIN](#)" where CDA participants can try their chance by scanning a PSP through a ScanX system to see if they've won one of three great prizes.
