Air Techniques Introduces Monarch Vinyl Upholstery Cleaner

MELVILLE, New York — (March 1, 2017) — [Air Techniques, Inc.](#), a leading innovator and manufacturer of dental equipment, has launched a new vinyl upholstery cleaner. This is the third product installment for the [Monarch Surfaces](#) product segment. [Monarch](#) is Air Techniques' product line of cleaners and disinfectants specifically formulated for [Surfaces](#), [Instruments](#), [Skin & Hands](#), and [Equipment](#).

[Monarch Vinyl Upholstery Cleaner](#) maintains the integrity of the material for longer life of dental chairs made out of artificial leather. It cleans and cares without leaving any residues. The cleaner is made of a blend of special surfactants, silicone compounds and avocado oil.

"We're excited about expanding our Monarch product portfolio with a special formulated cleaner for dental chairs" said Nicole Miller, Product Manager of Hygiene. "This cleaning solution helps preserve the material of dental chairs made out of vinyl upholstery, protecting your valuable investment for longer life."

[Monarch Vinyl Upholstery Cleaner](#) is easy to use and safely cleans all vinyl and artificial leather. It can be used daily if required and is currently available in a 16.9 oz. ready to use spray bottle. You can request a [free sample](#) of this product from the Air Techniques website.

[Air Techniques](#) offers a comprehensive line of infection control products, as well as an entire line of digital imaging products, and is the leading dental manufacturer of dental vacuums and air compressors systems in North America. [Air Techniques](#) distributes their products globally through a large network of dealers. For more information on Air Techniques, please visit www.airtechniques.com. Become a fan of Air Techniques on [Facebook](#) and follow the company on [Twitter](#).
